

# THE DEMOCRAT.

WEDNESDAY, AUGUST 4, 1882.

**A Word to Advertisers.**—All advertisements in this paper must be paid for in advance. The advertiser is responsible for the correctness of the copy and for the payment of the bill. The publisher is not responsible for the non-receipt of advertisements.

**Auction Sales.**—See advertisements of sales under regular Auctioneer in another column.

**Trunks Wanted at Portland.**—For the editor, Mr. James Watson, chairman of the board of trustees of the town of Portland.

**Removal.**—Mr. J. P. Heston removed to No. 616 Main street, between Second and Third streets.

**Patent Liquid Glass.**—We call the attention of tradesmen, manufacturers, and dealers to the card of Messrs. Phillips & Co., No. 4 Cedar street, near Pearl, New York. These gentlemen have made a most useful and important discovery, which will be of great benefit to all. Read the advertisement for particulars.

**Exactly.**—The Providence Post, in an able article in relation to the Democratic nominee for the Presidency, well and truly remarks as follows: "We have more than once uttered the same sentence:—"

"Franklin Pierce is not before the people because of his military position, because of the patriotism which prompted him to refuse high and honorable civil positions, and to enlist as a private soldier to fight the battles of his country—because he proved himself a brave, gallant, and able military officer. He is rather the candidate of the democratic party for the chief magistracy of this mighty republic, because he is able, faithful and true exponent of the principles and policy which they advocate, and he proved himself, in the various civil positions he has been called to fill, fully qualified to discharge with credit to himself, and honor to his country, the duties that devolve upon the office for which he is a candidate."

**Foreign Policy of the Administration.**—The Union, in a notice of the outrage at Acapulco, has the following:—

"The administration has manifested great energy in protecting the interests of Spain and Mexico, and has shown great humanity when England and France sent a police squadron into American waters; but an American citizen has little or no protection when he puts his foot on foreign soil. For two years the British have refused to comply with a solemn treaty, and in accordance with that refusal an American passenger ship was fired into, with hundreds of our unarmied citizens on board, yet nothing has been done worth mentioning. And now, when Americans are charged with murdering an American citizen, the administration has done nothing to protect the lives of our citizens."

**The Boston Advertiser of October 7, 1880,** spoke as follows of Gen. Pierce and his speech at a political meeting held at Charlestown, N. H., Oct. 1, 1880:—

"Mr. H. was followed by the Hon. Franklin Pierce, the other Senator in Congress. Mr. P. is a young gentleman of varied accomplishments, of undoubted talents, and great powers of eloquence. He has been elected to Congress in both houses of Congress, and would be listened to with interest by any forum. He occupied the meeting for an hour. He spoke with fluency, grace and eloquence, and his speech was not deficient in lofty sentiment and patriotic views."

**Discovery of yet another small planet.**—From the London Illustrated News we learn that on the night of the 24th of June, Mr. Hind, the astronomer at Mr. Bishop's private Observatory, in Regent's Park, London, discovered a new planet on the borders of the constellation Aquila and Serpens, about five degrees east of the star Tan in Ophiucus, which shines as a fine star between the 5th and 6th magnitude, has a very steady yellow light, and at times during the night, which was not favorable for high magnitudes, appears to have a disc.

**Plum-jer for Charles Quirey for the** office of Sheriff is about \$450 for White for Mar. 2nd 500. Nothing more accurate will be known until the official vote is announced.

**The names of the candidates for city Marshal** were misplaced in our columns yesterday.

**Stenographer Robert.**—A stenographer on the Lady Franklin was broken open while the boat was lying at Cincinnati, on Monday morning, and Mrs. Seymour robbed of \$250. Two young men, named George Kennedy and Martin Russell were arrested on suspicion of being concerned in the robbery.

**Country Residence.**—Mr. E. D. Lawrence offers his country residence for sale. It will be seen by reference to advertisement that it contains good substantial buildings with every desirable convenience.

**Steamboat Collision.**—The steamers Ophelia and Lescara came in collision on the 25th ult., a few miles above New Orleans. The Lescara had one side of her bows and part of her wheel-house torn off. No lives were lost.

**Accused—Hoke,** charged with poisoning his wife, was examined before two justices yesterday and acquitted. Messrs. Guthrie and Caldwell appeared for the accused, and Mr. Wolfe on the part of the prosecution.

**The body of Carl Meimler,** the German who was drowned in the river, opposite Third street, on Monday night, was recovered yesterday. He was a rope spinner by trade and boarded on Third street, near the river.

**The Fanny Smith arrived from New Orleans** yesterday. To Mr. Field, the gentlemanly clerk, we are indebted for papers, memoranda, &c.

**We direct public attention to the ordinances** in our advertising columns to-day.

**The Gauloise is reported** around above Evansville, and the Editor at Cumberland bar.

**We direct the attention of country merchants** to the advertisement of Messrs. Clagett, Johnson & Co. They are among the largest importers in Louisville. Their stock of Hardware, Cutlery, &c., is most extensive—at all times affording a large variety from which the purchaser may select.

**Mr. Jas. W. Breden,** real estate agent, No. 95 Fifth street, offers a large number of lots for sale. See list advertised in to-day's paper.

**Our friend Dr. Strader** has adorned his popular hotel with a new sign, the handiwork of Messrs. Merrill & Randall. It is very neatly executed, and is an excellent sign that they are skilful workmen.

**Reported for the Louisville Democrat.**

**POLICE COURT.**  
HON. JOHN JOYCE, JUDGE.  
MONDAY, AUGUST 2.  
Jacob Shipley, suspected felon; bail in \$300 for 3 months.  
Peter Williams, drunk and disorderly conduct; bail in \$200 for 3 months.  
Moses, slave of Chas. Finley, striking Bernard McClosky; dismissed.

**The crops in the country** look finely, and a large yield is certain.

**Watermelons of the largest size** are quite abundant in our markets.

**Business on the wharf is dull—very few** steamers arriving or departing.

**The City Council and Board of Aldermen** meet to-morrow night.

**Mr. Paulin** made a balloon ascension from Indianapolis on Thursday last.

**Barnum's museum and menagerie** will be along this way about the 1st of October.

**The Massachusetts State prison** has 491 inmates, of which number 20 are in life.

**Gen. Quilman** has gone to the Hot Springs of Arkansas.

**Mr. Crampton, the British minister,** is the guest of Mr. Webster at Marshfield.

**Upwards of a thousand emigrants** recently left London, in a single week, for Australia.

**A negro named Shipp,** a shoemaker by trade, attempted to commit suicide on Monday by cutting his throat.

**A counterfeiter named George Cook** escaped from the Cincinnati watch house on Friday.

**It is said the price of Mackrel** has advanced in New York, in consequence of the apprehended fish war.

**The British government** intends sending two thousand convicts to Australia, to keep the peace among the miners.

**The Louisiana State Convention** has adopted a provision in the amended constitution, providing for a registry law.

**A vessel has cleared from New York** for Australia, with a printer and materials for establishing a paper at Port Philip.

**Bishop Whitehouse** is said to have resigned the pastoral charge of Trinity church, Chicago.

**The Pennsylvania State Agricultural Fair** will open for exhibition at Lancaster, on the 20th of next October.

**The rail on the Covington and Lexington** railroad is now being laid, and the work generally pushed along bravely towards completion.

**There were no fewer than sixty-three** arrivals from New York on Monday morning, and of these, forty or more were square rigged vessels.

**Dr. Thomas Thompson,** regius professor of chemistry in the University of Glasgow, Scotland, died on the 21st inst., at the age of eighty years.

**An election took place in Texas** on the 23d inst., for attorney general and comptroller of public accounts, and for county officers.

**A Mexican Silver Mine,** on the Rio Grande, has recently been purchased by some Americans, who, it is said, are successfully working it.

**The Commissioner to China,** for which the Hon. Humphrey Marshall has been nominated, receives a salary of \$6,000 a year, but no outfit.

**Franklin Pierce,** who is a graduate of Bowdoin College, Me., is said, will attend the commencement of that institution, on the 21st August.

**The different railroad companies** at Indianapolis are building a Union Passenger Depot, 400 feet long, by 95 feet wide, and an eating house one story high, and 120 by 32 feet wide.

**The caterpillar, the destroyer of valuable** trees, etc., have not made their appearance this season. This time one year ago, they were unusually abundant, and their destruction to trees was without a parallel.

**Potato Bug.**—The Massillon (O.) News says a bug has made its appearance on the potato vine, which is said to be very destructive. They eat off all the leaves, and the vine dies, and the potato ceases to grow.

**They appear to have the right kind** of people for a new country out in Minnesota. The people about St. Paul assembled on Friday week, with pick-axes and shovels, and opened a road into Sault, on the west side of the river.

**From Havre.**—Intelligence from Port au Prince to the 31st inst. has been received. The yellow fever was prevalent there. Wm. K. Greeton, the British vice consul, and wife, had fallen victims.

**A mischievous fellow informed** the editor of the Pittsburgh Chronicle that the cars had run over two fishermen. Of course he noticed the occurrence in his paper; but it turned out that the men were at work in a culvert under the road, when the cars passed; and the editor, in explanation, acknowledges he was "sold."

**The French Navy.**—It is said that the appropriations for the current year, in France, puts in commission one hundred and twenty vessels, of which seventy-one are steamers—this portion of the force being nearly twelve times the number of steamers belonging to the United States Navy!

**POLITICAL PRISONERS.**—The Philadelphia Democrat, a German paper of Philadelphia, gives, as the amount of political prisoners now in Europe, calculated from the accounts given in European journals for some time past, a total of 76,580, without including those confined in Russia and Poland, the number of whom is left to conjecture.

**THE LATEST LABOR SAVING MACHINE.**—It is said that a Yankee has invented a potato digging machine, which, drawn by horses down the rows, digs the potatoes, separates them from the dirt, and loads up into the cart, while the farmer walks along side, whistling, "Hail Columbia," with his hands in his pockets.

**DELAWARE NOT FOR SCOTT.**—The Wilmington Gazette denies that Delaware is for Scott, as it is put down in all the calculations of the election. It says, and says truly, "the results of the several elections during the last six years warrants us in believing that a majority of the people of Delaware are Democrats."

**SOUTHERN RAILROADS.**—The citizens of New Orleans are endeavoring to form a railroad connection with Arkansas and Texas, depending upon the trade west of Louisiana to compensate them for that which they have lost east of the Mississippi, by the numerous railroad routes erected by the enterprise of the Northern States.

**MOVEMENTS OF U. S. VESSELS.**—An order was received at the Brooklyn Navy yard, on Monday morning, to place the frigate Constitution in readiness for sea. Workmen were immediately placed upon her, and she was taken into the dock. The sloop-of-war Warren, brig Dolphin, and one or two other naval vessels lying at the yard, have been ordered to get ready for sea within a few days past. The Boston Traveler says that no orders have been received at that port to dispatch the U. S. ship Albany to the fishing grounds, as reported through the telegraph.

**NEW STYLE FANCY TACK COMBS.**—15 from, as assorted, received this day and for sale by JAMES LOW & CO.

**BLACK German Clocks.**—3 cases received this day and for sale by JAMES LOW & CO.

**BLACK Maria Vases.**—27 pieces received this day and for sale by JAMES LOW & CO.

**QUILTS.**—30 cases 104 quilts received this day and for sale by JAMES LOW & CO.

**PICKLES.**—200 half gallon and quart jars Pickles, in store and for sale by A. BORIS.

**NEW BOOKS.**—150 cases received this day and for sale by JAMES LOW & CO.

**NEW BOOKS.**—150 cases received this day and for sale by JAMES LOW & CO.

**NEW BOOKS.**—150 cases received this day and for sale by JAMES LOW & CO.

**FANNON'S SHARE.**  
AN INCIDENT OF THE REVOLUTION.

The exploits of Fannon, the famous toy paragon of North Carolina, would make a body of facts more interesting to us than the life of a hero. He was a reckless fellow—bloody minded as the hounds of Hail. He sometimes slew the helpless and innocent in cold blood—the coward! But he was a man of a noble and daring heart, and he kept his people in the midst of the trade. Turning this corner, we pass down Green street to Clay on our right hand you have another comparatively new kind of business; but which certainly may pay pretty well, inasmuch as there are already two houses now engaged in it, by the street that runs parallel and door-to-door manufacture; there are to be found all patterns, all sizes, all quantities of cloth, designed for the purpose of the trade. Passing down Clay street, there is little to be observed beyond the evidences of improvement over which we are continually stumbling; but such evidences have become so much a matter of course that I seldom stop to notice them, save the very large and fine buildings.

On Market street, between this and Hancock, surrounded by a high fence, and shut out from curious eyes, is to be found a manufactory of white lead. We need not come to a very extensive paint manufactory, one of the most extensive in the western country. There are two warehouses for the sale of the instruments manufactured there, and the street that runs parallel and door-to-door manufacture; there are to be found all patterns, all sizes, all quantities of cloth, designed for the purpose of the trade. Passing down Clay street, there is little to be observed beyond the evidences of improvement over which we are continually stumbling; but such evidences have become so much a matter of course that I seldom stop to notice them, save the very large and fine buildings.

There are two warehouses for the sale of the instruments manufactured there, and the street that runs parallel and door-to-door manufacture; there are to be found all patterns, all sizes, all quantities of cloth, designed for the purpose of the trade. Passing down Clay street, there is little to be observed beyond the evidences of improvement over which we are continually stumbling; but such evidences have become so much a matter of course that I seldom stop to notice them, save the very large and fine buildings.

On Market street, between this and Hancock, surrounded by a high fence, and shut out from curious eyes, is to be found a manufactory of white lead. We need not come to a very extensive paint manufactory, one of the most extensive in the western country. There are two warehouses for the sale of the instruments manufactured there, and the street that runs parallel and door-to-door manufacture; there are to be found all patterns, all sizes, all quantities of cloth, designed for the purpose of the trade. Passing down Clay street, there is little to be observed beyond the evidences of improvement over which we are continually stumbling; but such evidences have become so much a matter of course that I seldom stop to notice them, save the very large and fine buildings.
